## Career Objective

Aspiring Java Full Stack Developer with hands-on training in backend and frontend technologies. Eager to contribute to real-world projects and grow in a dynamic software development environment. Passionate about solving problems and building scalable web applications.

## Technical Skills

- **Languages:** Java, JavaScript, SQL
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks & Libraries:** Spring, Spring Boot, Hibernate with JPA, Servlets, JDBC
- **Databases:** MySQL
- **Tools:** Git, GitHub, Maven, Postman, VS Code, Eclipse
- **Concepts:** OOPs, REST APIs, MVC, Agile Basics

## Projects

### CollegeConnect – Role-Based College Directory System

**Tech Stack:** *Spring Boot, Spring Security, MySQL, HTML, CSS*

- Building a secure portal with separate dashboards for Admin, Faculty, and Student roles.
- Implementing login, course search, profile management, and department analytics.

### MediTrack – Hospital Management System

**Tech Stack:** *Hibernate, Servlets, JDBC, MySQL*

- Designing modules for patient registration, doctor scheduling, and billing.
- Focus on clean CRUD operations and database integrity using JDBC + Hibernate.

### JobHuntPro – Online Job Portal

**Tech Stack:** *Spring Boot, MySQL, HTML, CSS*

- A platform for posting jobs, applying for jobs, and managing applicants.
- Advanced search and filtering features to simulate real-world job board experience.

### UI Clones – Netflix, Amazon, Facebook

**Tech Stack:** *HTML, CSS, JavaScript*

- Developed responsive UI clones for popular platforms to strengthen frontend design skills.
- Focused on layout, responsiveness, and cross-device compatibility.

## Education

**Bachelor of Engineering (Mechanical Engineering)**, Malnad College of Engineering, 2020-2024

## Certifications

- Java Full Stack Development – JSpiders, Hebbal (2025)
- Web Development Bootcamp

## Technical Training

**Java Full Stack Development — JSpiders / QSpiders, Hebbal, Bengaluru**

Completed in 2025

- Trained in Java, Spring Boot, Hibernate, JDBC, Servlets, HTML, CSS, JavaScript, and MySQL.
- Built real-time mini projects simulating enterprise use cases.
- Learned full stack development using MVC architecture and RESTful APIs.

## **Additional Information**

- Passionate about learning new technologies and frameworks.
- Strong understanding of data structures and algorithms.
- Eager to learn new technologies and contribute to development teams
- Good communication and teamwork skills
- Open to relocation and flexible with work environments

## **Languages Known**

- Kannada (Native)
- English (Fluent)
- Hindi (Conversational)
